TOASTING GEORGE WASHINGTON.

How a Missionary Society at Hyattaville The 22d of February banquet given by the Young Ladies' Missionary Society of the Hyatsville Presbyterian Church proved a success, both as to its enjoyableness and financial results. The hall was crowded for the supper from 5 to 7, after which the president of the society, Miss Emily Schoepf, called the meeting to order with a neat little address, giving a history of the society during the past eight years and of the work done. Mr. A. R. Holden, as toastmaster, conducted the further proceedings. Toasts were given and responded to as follows: "The memory of George Washington:" drunk standing and in silence. AMUSEMENTS.

ALBAUGH's.—Few plays come with a heartier recommendation than Denman Thompson's "Old Homestead," which will be presented at Albaugh's next week and of which so much has been written. The plot is a simple story of the present day and deals with one of the present types of country farm life in New England, into which is thrust a wedge of life in the city—s moving panorama of the two—bringing back to all a dear memory of "old home." The moral tone is perfect, the impression pure and wholesome; its success is its simplicity in dealing with a subject that comes home to everybody. Besides being a strongly written play; it has a value in that it is a perfect reproduction of New England life, and people born and and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitnal constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it tenders.

"I regret very much that any difference of opinion should come between us, because I have a very high opinion of Mr. Gannon personally. He admits having received a letter from Treasurer Lyman, and says he hastily glanced over it. The letter was not sent to him to be hastily glanced over. He should have read it carefully. He confesses that he wrote the address hurrically. No address over the signature of the president of the Irish National League of America should be written hurrically. Prasident Gausen is not written hurriedly. President Gannon is not infallible, and in this matter he has certainly made a mistake."

> ALL BUT THE CAPTAIN LOST. Two Steamers Crash Together in the North

News comes of a terrible disaster in the North sea by which a steamer went to the bottom, carrying with her every soul on board, with only one exception. The steamers Loughbrow (Br.) and Forest Queen came into collision off Flamborough, a village of York county. East Riding, on the North sea. The vessels crashed together with great force and the Forest Queen was torn apart by the bow of the Loughbrow. The damages sustained by the Forest Queen were so extensive that the sea began to rush through the breeches made in her hull in a great volume. The water poured in so rapidly that she at once began to settle, and, in a very short space of time after she had been struck, she plunged to the bottom. So quickly did the Forest Queen founder that her erew had no chance to save their lives and all hands, with the single exception of the captain, went down with her to a watery grave.

to help you, or it costs you nothing.

If it weren't the most certain and effective remedy in the world, do you think it could be sold in any such way!

Every overworked and "run-down" woman and every delicate and suffering woman, needs it. It builds up and invigorates the whole system, regulates and promotes the proper functions, and restores health and strength. It's a legitimate medicine, not a boverage; purely vegetable, perfectly harmless, and made especially for woman's needs.

In every disorder and derangement peculiar to the sex, periodical pains, weak back, bearing down sensations, and kindred all-ments, "Favorite Prescription" is guaranteed to benefit or cure, or you have your money back.

WHAT DO I NEED?

Question Which Comes Home to Us.

"What do I need? I am feeling nervous, tire and without my old-time snap and vim." These are the feelings of thousands at this tim of year, during the change from winter to spring, They are run down with spring debility, malaria or have overworked and overstrained brain, nerves and system, and feel dull, without energy; do not eat and sleep well; liver and bowels benervousness, sense of anxiety, strange sensations which plainly show that the nerves are not right. There is danger in these symptoms—the danger of nervous prostration, heart failure, paralysis or insanity. The danger lies in neglect, however.

Greene's Nervura, the great specific for these nervous diseases, when the first symptoms appear, and cure is sure. This wonderful discovery will calm, quiet and strengthen the nerves imme distely, invigorates the brain, enriches the blood and vitalizes the whole system. Purely vegetable and harmless, Druggists, \$1. "From the constant worry over business matters

I suffered from the loss of sleep, and became so nervous that I was entirely unfitted for business. In fact, I feared insanity. I used Dr. Greene's Nervura. The effect was almost magical. I could again sleep; mental composure, appetite and strength returned. Six bottles of this remedy cured me, and I have remained well to this date. I have recommended Dr. Greene's Nervura to many of my friends and neighbors and have yet to learn of a failure to obtain good results.

MEDICAL, &c. and New York 1879. DISEASES OF MEN. Oreanic and nervous weakness and LOSS of POWER.

Orranic and nervous weakness and LORS of POWZL-partial or complete, attacks no per cent of men at some time of life between the ages of twenty-one and fifty. The individual becomes dispirited, despondent and often demoralized, and, foolishly imaginture that it is something to feel ashamed of, he too frequenty falls a willing victim into the hands of some of the designing quacks who infest our large cities. Its cause and proper mode of treatment is but little understood by the general practituder of medicine, and the quack with his "scare to death" style of literature (!), and with his "scare to death" style of literature (*), adds much to the mental misery and injury of many men who have beyin to realize that they are NOT as vicorous as formerly, and the vividly gloomy word pictures of the quack too often gauss succeptible men to become combitely unnerved. Nervous debility, &c., &c. are terms used senerally to indicate the want of so-called manly vigor. The late Dr. Bard, an eminent authority on nervous diseases, termed it "Neurasthenia." But call it what you may, whether the weakness is partial or compilete, except in case of paralysis, EXTREME old age of general breakdown of the entire constitution, it is in nine cases out of ten the result of an inflammatory, hyper-sensitive and highly irritable condition of the Prostatic Urethra, which gets from had to worse. NEVER heals spontaneously and CANNOT be cured by stomach medication. My method of LOCAL medication and electrical treatment to the affected part is the only sensible, scientific and sefs mode of treatment. It is the ONLY method now advised, advocated and practiced by the eminent celebrities of America and Europe, who have earned a world-wide distinction by their knowledge and skill in the treatment of diseases of the Genitoand skill in the treatment of diseases of the Genito Urinary Organs and Nervous System.
